

Important Dates:

Last date to submit Application: **16-08-2019**

Eligibility:

Faculty from AICTE approved Pharmacy Institutions, Research Scholars .

Targeted Audience:

1. The selection relies solely on first come first serve basis.
2. Preference will be given to the aspiring academicians, research scholars .
3. Participation is restricted to 40.

Details of Venue:

The one week faculty development programme will be based in Narayana Pharmacy College, Narayana Medical College Campus, Nellore. Delegates can avail free transport service arranged throughout the week from the city centre (VRC) every 20 minutes between 8:00 AM and 9:00 AM.

Accommodation:

Accommodation will be provided upon request at an affordable price in the college premises.

For further information and details about the programme, please contact:

About Narayana Pharmacy College:

Narayana Pharmacy College is established in 2008 with an objective to foster potential pharmacists by Dr. P. Narayana.

It is situated in the lustrous green campus of Narayana Medical College and Hospital and is just 5 kms from the city center. It is one of the premier institutions among the affiliates of J.N.T.U Anantapur and stands top among the Pharmacy Colleges in the region offering B.Pharmacy, M.Pharmacy and Pharm.D courses to the students.

The college is equipped with excellent infrastructure, state of art laboratories, central library and advanced sport facilities. The college provides topnotch experience to the budding pharmacists to excel in their career as community pharmacists, Research Scientists, clinical pharmacists etc.

Student intake:

B.Pharmacy : 100

Pharm.D : 30

M.Pharmacy: Pharmaceutics- 12

Pharmaceutical Analysis- 12

Vision:

- To attain value based Pharmaceutical education, Health care, Research and technology of global standards enriched with quality contributing to national development.

Mission:

- To provide value based student centric flexible Pharmaceutical education.
- To achieve, sustain and further enhance quality Pharmaceutical education
- To encourage innovation and research to benefit the community and thereby enabling the industry to produce cost effective equipments

Overview of the FDP Programme:

The one week programme is intended to create awareness and provide live experience to the delegates in importance of natural products.

Natural products are minimize the side effects of skin care. List of ingredients used in cosmetics and comparison of organic and natural products.

Thus the conference attempts to instil an in-depth knowledge of biostatistics and statistical tools in the pursuit of data interpretation. The delegates shall gain hands-on-experience of commercial statistical tools and grasp the significance of statistics in handling and refining complex data.

Objectives of the programme:

- Optimize clinical trial design and analysis to improve efficiency and efficacy in drug development.
- Improve interpretation of complex data to make informed decisions about drug efficacy and safety.
- Utilize statistical methods to tailor treatments based on individual genetic profiles for better outcomes.
- Provide rigorous statistical evidence to meet regulatory standards and maintain quality in drug development.

Scope of the programme:

The scope of the biostatistics-pharmaceutical sciences nexus includes optimizing drug development, enhancing clinical trial design, improving data interpretation, advancing personalized medicine, and ensuring regulatory compliance. It integrates statistical methods to drive innovation, precision, and efficiency in pharmaceutical research and development, addressing critical healthcare needs.

Overview of the FDP Programme:

Being an academician is one of the challenging occupations yet highly rewarding. A teacher catalyzes knowledge, ignites inspiration, instills motivation and is dedicated to nurturing their future counterparts.

Academicians in Pharmaceutical sciences stream take up diversified roles as teachers, researchers, guides and also administrators. Through out their academic career, professors constantly delve in to the progressing advancements in the pharmaceutical domain. Juggling multiple tasks can induce stress among them. Also a nexus with the international world is essential need of the hour to make them stand out of the crowd and build up their professional career.

The one week Faculty Development programme is thus intended to make the academicians realize wider opportunities across the globe in the pharmacy and allied fields. Eminent speakers will address the current opportunities and prospects in the pharmaceutical sciences stream, and will extend their support to extract the hidden leadership qualities within the potential teachers.

About the Faculty Development Program

The one week programme is intended to create awareness and provide live experience to the delegates in importance of statistics in pharmacy and clinical science

Objectives of the FDP:

To know the different software used in drug analysis.

To gain knowledge of statistics used in research work.

To understand the different methods used in drug analysis.

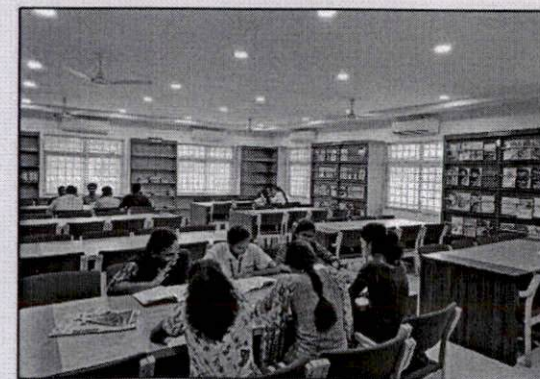

COLLEGE PROFILE :

Narayana Pharmacy College is established in 2008 with an objective to foster potential pharmacists by Dr. P. Narayana. It is situated in the lustrous green campus of Narayana Medical College and Hospital and is just 5 kms from the city center. It is one of the premier institutions among the affiliates of J.N.T.U Anantapur and stands top among the Pharmacy Colleges in the region offering B.Pharmacy, M.Pharmacy and Pharm.D courses to the students. The college is equipped with excellent infrastructure, state of art laboratories, central library and advanced sport facilities. The college provides topnotch experience to the budding pharmacists to excel in their career as community pharmacists, Research Scientists, clinical pharmacists etc.

DEPARTMENT PROFILE :

The Department of Pharmaceutical Analysis & Analysis is one of the core branches of Narayana Pharmacy College established with an objective to train students in assessing the quality, purity and safety of drug substances, drug products including drugs from natural origin. The department is equipped with sophisticated analytical equipment like High Performance Liquid Chromatograph, Double beam UV- Visible Spectrophotometer, Polari meter, Refract meter etc.
